

Protect What Matters: Specialty Polycarbonate for Jewellery Displays

Jewellery displays are more than just showcases—they're the first line of protection for your valuable inventory. Our **Specialty Polycarbonate – Optical Grade** provides unmatched security while keeping your displays as dazzling as the items inside.

Key Features

Unmatched security

- Virtually unbreakable: 200x stronger than glass.
- Deters "smash-and-grab" thefts effectively

Crystal-Clear Visibility

- High optical clarity ensures jewellery shines without distortion

Easy Integration

- Lightweight and easily retrofitted into existing showcases.
- Fabricates seamlessly with standard tools

UV Protection

- Prevents discolouration and damage to jewellery caused by UV exposure

Australian Standards Compliance

- Meets Australian Safety Glass Standards AS2080:2019

See the Difference in Action

Imagine displays that offer the beauty of glass with the strength to protect what matters most.

Whether you're upgrading existing cabinets or planning new installations, Specialty Polycarbonate offers an affordable, secure, and elegant solution.
